Projects

Portfolio

HTML5 / CSS3 / JS ES6 / jQuery
Gulp / Grunt / Sass / Browsersync

- A lightweight Personal portfolio with a mobile-first design approach
- Responsive UI and clean aesthetic, built with just jQuery
- Original SVG animation on landing screen, built with SCSS & Illustrator

'95-chat

React / Redux / Socket.io / Babel
Webpack / AWS (SES,S3) / Jest

- A social network based on the Apple Mac OS-7 Aesthetic
- Secure auth & password reset with Bcrypt, Cookie-session & Csurf
- Account creation, management instant messaging & image upload via AWS S3 & SES

Imageboard

Vue.js / Express / AWS (s3)
Multer / Node / MySQL / Axios

- A single page application for hosting and viewing images built with Vue.js
- Dynamic & responsive components, with a persistent dark mode layout
- Image upload & delete utilising AWS S3 & Multer, with image filter-selection and comment functionality

Education

Full-Stack Web Development

@ Spiced Academy Berlin

Nov 2019 - Feb 2020 // DE

- An Immersive 12-week study focused on fundamental & industry standard web technologies that built strong team development skills over collaborative projects to create complex apps.
- Strengthened skills in writing robust, clean, well-documented code, comprehensive understanding of git-flow and versioning and a confidence in self education to learn new concepts/technologies.

Experience

Freelance web adviser / support

@ Out-of-Joint Records

Apr 2020 - Present // UK

- Troubleshooted several platform issues that could have effected business sales, and incurred large costs
- Implemented styling suggestions that dramatically improved user interaction

Supervisor / marketing manager

@ Café Rialto

Jan 2018 - Present // UK

- Oversaw online marketing outreach that directly improved sales and brand awareness
- Refined and optimised business practices and operations that increased profits by over 20%
